

# Environmental Policy Statement

---

## Scope of Registration

**The provision of specialist principal and sub-contract services in relation to the cleaning, repair and refurbishment of (historic) buildings**

## Policy

**Restore London Ltd** recognises that its building and construction related activities have environmental implications.

It is therefore the policy of the Company to:-

- Aspire to reduce environmental damage and increase, where possible, the opportunities for environmental gain.
- Comply with any legal requirements and those of ISO 14001:2004
- Seek to find our work in an environmentally friendly manner to minimize the effects to Air, land, flora, fauna and water courses.
- Encourage all employees and Contractors to avoid and prevent environmental damage and to act as good neighbours to those affected by building and construction activities and to respect the views of any other interested party.
- Provide, exhibit & review this policy at 12 monthly intervals
- We endeavour where possible to use sustainable sources for the procurement of wood and the other raw products that we use during our undertakings.
- See to set environmental objectives and targets and monitor continual improvement in the respect of environmental management

For the implementation of this policy the following organisation and arrangements apply:

The working Contracts Managers on site or at place of work will be responsible for the implementation of the Company Environmental Policy, and will ensure that:-

- All work is carried out in accordance with all relevant Acts, Regulations, and Company Policy and procedures, as defined in the Staff Health and Safety Manual, COSHH Manual, Safety Plans, and the BMS as well as all other company/safety consultant instructions.
- Waste is removed in accordance with legislation by registered carriers to licensed tips;
- Measures are taken to control ground, river and coastal water pollution.
- Measures are taken to control noise pollution;
- A good neighbour policy is implemented.
- Comply with international protocol by ensuring that ozone depleting gases such as CFC's and halons are not discharged to atmosphere;
- All materials wastage is minimised, recycling options promoted, and water, paper and energy conserved;
- Wildlife, habitats, flora and fauna, archaeological and heritage sites are protected as appropriate;
- All incidents detrimental to the Environment are investigated, reported and preventative action taken against repetition.

**The Company will:**

- Reduce exhaust pollutants from vehicles by operating all cars on unleaded fuel and by progressively fitting catalytic converters;
- Seek to conserve the use of energy, water and paper and promote the use of recycled materials at its offices stores and depots.
- The working Contracts Managers on site or at place of work will be responsible for bringing to the notice of management any deficiency observed and for providing guidance, information and training.
- Within the organisation, arrangements will be made to submit environmental reports and discuss environmental matters at Board Meetings, Safety and Safety & Environmental Management meetings, and within Safety Meetings held throughout the company.

As a Director it is my responsibility to ensure that all aspects of the Company's Environmental Management Systems are communicated, understood and implemented at all levels in the Organisation. It is periodically reviewed for its continued suitability and effectiveness by the senior management.
